

Std III – Vacation Assignment

Let's Make a Lunch Towel!

Vacations are here—why not spend some time doing something fun, creative, and useful?

Let's try stitching!

Measure the length and breadth of the lunch towel you already use. Cut a plain cloth of any colour according to those measurements. Draw your favourite cartoon character on it. Don't know how to draw? No problem! You can trace a picture from a magazine using tracing paper.

Bring Your Design to Life

- Use fabric paints to colour it, **or**
- Stitch the outlines using a needle and thread

You can take help from your grandparents or siblings to get started.

Measure the length and breadth of your towel. Then calculate its **area** and **perimeter**

Do some research on the type of fabric you used:

- Which fabric is best for making a lunch towel?
- Why is it suitable?

Write down your observations.

Take pictures of your work and post them in the class group.

Once your towel is ready—wow, amazing work! 🙌

Make one for your sibling and your Amma too!

Use it to wrap your lunch box and snack box when school reopens.

Show off your creativity by exhibiting it to your friends and class teacher.

Make it colourful, neat, and unique!
